

Contact Information for Illicit Discharge Detection & Elimination

The City employs a variety of strategies for Illicit Discharge Detection & Elimination (IDDE) including ordinances, system maps & dry weather inspections. These activities will represent efforts (BMPs) that are effective in reducing the impacts of pollutants on stormwater runoff from illicit discharge.

If an illicit discharge is detected in the City of Tuscumbia, the Public Works department will trace the illicit discharge back to the source, if possible, in the city limits. If the source originates in an adjacent city including Muscle Shoals or Sheffield or in the County of Colbert, the proper authority will be notified.

The following is the contact information if an illicit discharge is detected in the City of Tuscumbia or an adjacent MS4.

Tuscumbia

Bo Stanley
(256) 386-5674
bostan29@comcast.net

Muscle Shoals

William Osborn
(256) 386-9205
